

Warmer and Warmer

Unit

1

A

What might happen if our planet becomes too hot? Discuss your answers.

Listening Skill

Finding the main ideas (1)

Main ideas are the biggest and most important ideas. Sometimes a speaker will tell you the main ideas by repeating key words.

B

2 Listen to the lecture and check [✓] the boxes each time you hear the word.

1	weather	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2	warm(er)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3	less	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4	water	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5	food	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6	drink	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7	clean	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Listening

C Complete the sentences using the words.

glaciers global warming temperatures Antarctica

- 1 _____ is changing the world in many ways.
- 2 _____ are big sheets of ice on land.
- 3 _____ is the continent covered in ice at the South Pole.
- 4 Penguins and seals have adapted to cold _____.

D Listen to the lecture and take notes.

Part A

Key words: _____

Part B

Key words: _____

Take notes effectively by abbreviating words or using symbols. For a list of common note-taking shortcuts, go to pages 70–72.

Practice

3 Write the answers, using your notes to guide you. Then listen again to the lecture to check your answers.

1 What key words does the speaker repeat in Part A?

2 What key words does the speaker repeat in Part B?

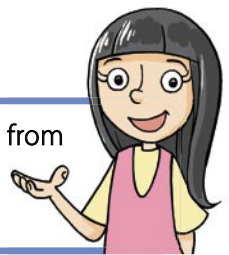

Circle the two main ideas.

- a Scientists are watching glaciers in Asia, Europe and North America.
- b Global warming is melting the world's glaciers.
- c Warmer temperatures may be killing animals and birds in Antarctica.
- d The South Pole has a lot of snow and ice.

Use the key words from the lecture to help you find the main ideas.

Pronunciation Focus

Key words

To show the main ideas more clearly, speakers sometimes say the key words more loudly and slowly.

4 Listen.

However, as the **temperature** around **Antarctica** gets **warmer**, they are having trouble surviving.

5 Listen to the statements and write the key words.

- 1 scientists, worried, global warming
- 2 _____
- 3 _____
- 4 _____

Integration

6 Listen to the lecture and take notes on a separate piece of paper. Then check [✓] the two main ideas.

- 1 Many people will move from cities.
- 2 There will be much more rain throughout the world.
- 3 One negative effect of global warming is a higher sea level.
- 4 There will be more floods and droughts because of global warming.

J Write one effect of global warming and think of a problem it might cause. Then ask a classmate and write his/her ideas.

Me

Effect: _____

Problem: _____

My classmate

Effect: _____

Problem: _____

K Tell the class your classmate's ideas.
